Introduction

The Office of Inspector General (OIG) is established pursuant to Section 20.055, Florida Statutes, to provide a central point for the coordination of, and responsibility for, activities that promote accountability, integrity, and efficiency in the State Courts System.

The OIG fulfills these responsibilities by conducting independent and objective engagements designed to add value and improve the programs and operations of the State Courts System. This is accomplished through internal audits, management reviews and other consulting activities. Other responsibilities of the OIG are to:

- Conduct financial, compliance, electronic data processing, and performance audits and prepare audit reports of the findings.
- Review the actions taken by the State Courts System to improve program performance, meet program standards and make recommendations for improvement.
- Conduct, supervise, or coordinate other activities carried out by the State Courts System for the purpose of promoting economy and efficiency in the administration of, or preventing and detecting fraud and abuse in, its programs and operations.
- Recommend corrective action concerning fraud, abuses, and deficiencies, and report on the progress made in implementing corrective action.

As required by Florida Statutes, the OIG conducts engagements in accordance with the International Standards for the Professional Practice of Internal Auditing (*Standards*.)

Risk Assessment Methodology

Section 20.055, Florida Statutes, requires the Inspector General to develop long-term and annual audit plans based on the findings of periodic risk assessments. The *Standards* Section 2010, Planning, states the plan of engagements must be based on a documented risk assessment, undertaken at least annually.

The objective of developing an audit plan is to identify and plan for an assessment of program areas utilizing a risk-based approach. Identification of projects using this methodology allows for enhanced efficiency in the planned work. The priority is to provide the maximum benefit to the State Courts System using available audit resources.

We utilized qualitative and quantitative data to assess risk and rank potential audit topics. To perform the risk assessment, we:

- Identified the major auditable units of the State Courts System
- Surveyed senior management regarding their perspectives on risk
- Reviewed results of prior audits, including the time elapsed since the prior audit
- Assessed various financial impacts of the auditable units
- Evaluated the complexity of operations of each auditable unit
- Identified significant changes or new initiatives within each auditable unit
- Reviewed the significance of each auditable entity to the core mission of the State Courts System
- Reviewed legislation impacting State Courts System operations
- Assessed the impact of current conditions on the auditable units

Using the results of this risk assessment, we developed the audit plan for fiscal year 2022-2023, including the long-term audit plan.

Positions allocated to the OIG consist of an Inspector General, a Senior Internal Auditor, and an Administrative Assistant. For the Inspector General and the Senior Internal Auditor positions, the total direct hours available for audits, consulting activities, and other management requests are 2,950.
